## Welcome to Justice Day 2015!

We gather under the banner of **The Justice Project: The March Continues**, a movement that aims to inspire north suburban residents to shape their suburbs into more just, welcoming, diverse and inclusive communities.

Our inspiration is the North Shore Summer Project, a grassroots campaign founded in the early 1960s by ordinary women and men determined to end housing discrimination on Chicago's North Shore. Their tireless persistence drew the attention of the larger Civil Rights Movement, and in July 1965, Dr. Martin Luther King, Jr. addressed a gathering of 10,000 on the Winnetka Village Green in support of open and fair housing markets. Not long after, federal fair housing legislation was enacted. The Summer Project ultimately became **Open Communities**, a fair housing and social justice advocacy organization serving 16 north suburban communities.

**The Justice Project: The March Continues** has established *Principles of a Welcoming Community* that set out the framework by which municipalities can evaluate themselves in order to become more accessible, safe and engaged; and by which residents can hold their elected and appointed representatives accountable.

We invite you to join **Open Communities** in advancing this 21<sup>st</sup> century civil rights movement. Join the Justice Project Team in your community. Enlist your congregation or community organization as a Project Partner. Support the Project with a tax-deductible contribution to Open Communities. *Thank you for attending Justice Day 2015.*
